## WEICONLOCK® - Anaerobic Adhesives and Sealants

Especially made for economical threadlocking, retaining and sealing of threaded, cylindrical and pipe assemblies. After the curing, it provides a shock- and vibration-resistant joint with excellent

resistance to chemicals and solvents from -60°C to +200°C (-76°F to +392°F).

### AN 302-43

- threadlocking
- drinking water and DVGW approval

higher viscosity  
medium strength  
disassembly with normal tools

50 ml   
30243150

### AN 302-60

- threadlocking
- for passive surfaces
- application without activator possible

medium viscosity  
high strength  
hard to disassemble

50 ml   
30260150

### AN 305-18

- flange sealing for filling large gaps with immediate sealing effect
- high-temperature-resistance

high viscosity  
high strength  
hard to disassemble

50 ml   
30518150

### AN 305-42

- hydraulic and pneumatic sealing
- DVGW approval

medium viscosity  
medium strength  
disassembly with normal tools

50 ml   
30542150

### AN 305-72

- pipe and flange sealing with PTFE
- immediate sealing effect
- drinking water and DVGW approval

high viscosity  
high strength  
hard to disassemble

50 ml   
30572150

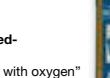

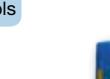

### AN 305-77

- thread sealing
- drinking water and DVGW approval

high viscosity  
medium strength  
disassembly with normal tools

50 ml   
30577150

### AN 306-38

- adhesive for bearings and bolts
- for bearings, bushings, bolts and gear wheels of up to 0,2 mm gap

medium viscosity  
high strength  
hard to disassemble

50 ml   
30638150

### AN 306-10

- retaining cylindrical assemblies for passive materials

medium viscosity  
high strength  
hard to disassemble

50 ml   
30610150

### AN 305-77

- protection and security against manipulation
- good adhesion on almost all kinds of material
- removable and water resistant

# WEICON Solutions for Mechanical Engineering

## Elastic Adhesives and Sealants

Today elastic adhesives and sealants are used in many areas of industrial production and assembly. They combine the advantages of adhesive

bonding and sealing technology and are used wherever the elasticity and the sealing of a joint are the most important requirements.

### Flex 310 M® Classic

- free of isocyanate and solvents
- suitable for universal use
- free of silicone
- LFGB- und ISEGA certified

310 ml ✓	310 ml ✓	310 ml ✓
white	grey	black

### Flex 310 M® HT 200

- ideal for powder coating
- temperature resistant from -40°C to +200°C (-40°F to +392°F)

310 ml ✓
13655310

## WEICON GMK

GMK are contact adhesives based on polychloroprene (CR) for the high-strength, full-surface and flexible bonding of:

- rubber to rubber
- rubber to metal

### GMK 2510

- 2-component adhesive
- permanently elastic and strong adhesion on many elastomers (e.g. Hypalon)
- moisture and temperature resistant

324 g ✓  
16200324

**Working package**  
(consisting of 300g adhesive and 24g activator)

690 g ✓  
16200690

**Working package**  
(consisting of 650g adhesive and 40g activator)

## Assembly Pastes

All kinds of influencing factors, such as moisture and friction, lead to damage due to corrosion, seizure, and wear on machines and installations.

Extensive repair and maintenance work at considerable cost are the result.

### Anti-Seize High-Tech

Nonfood Compounds  
Program Listed H1  
Registration 141636

- metal-free
- NSF approval
- temperature resistant from -40°C to +1400°C (-40°F to +2552°F)

400 ml ✓ 27050400	400 g ✓ 26100040	1,0 kg ✓ 26100100
Spray	Cartridge	Can

Especially under difficult conditions such as:

- high operating temperatures
- high pressure loads
- open air conditions

where such consequences frequently occur.

### Copper Paste

- protecting, separating and lubricating agent
- for highly stressed parts
- temperature resistant from -20°C to +1100°C (-4°F to +2012°F)

400 ml ✓ 27200400	200 ml ✓ 26200200	1,0 kg ✓ 26200100
Spray	Press pack	Can

## Technical Sprays and Liquids

Technical sprays and liquids are being used in almost all areas of the industry. They serve as a protection and care of surfaces,

cleaning and degreasing, lubrication, solving and releasing, and are with no doubt an indispensable part of the daily work.

### Cleaner Spray S

- powerful
- evaporates without leaving residues
- non regreasing

500 ml  5 l   
11202500 15200005

### Surface Cleaner

- for pretreatment of bonding surfaces
- evaporates quickly and without leaving residues
- for metal and plastics

400 ml  5 l   
11207400 15207005

### Workshop-Cleaner

- bio-degradable
- temporary corrosion protection
- free of solvents and dilutable with water (1:40 max.)

5 l   
15205005

### Parts and Assembly Cleaner

- high flash point (> +60°C/+140°F)
- removes coarse, oily, resinified and greasy contamination

500 ml  5 l   
11201500 15211005

### Citrus Cleaner

- universal cleaner based on citrus peel extracts
- cleans machines and systems, precision engineering components and precision mechanisms

400 ml  5 l   
11217400 15210005

### AT-44 Allround-Spray

- allround-spray with PTFE super power
- fine care for all precision parts
- highly creeping capacity

400 ml  5 l   
11250400 15250005

### WSD 400 Pressurized-Air Spray Can

- refillable
- made of aluminium
- container volume of 400 ml

400 ml   
15811400

### Sealant and Adhesive Remover

- removes residues of cured sealants and adhesives as well as lacquers and paints
- can be used on metal, wood, glass, ceramics, PE + PP

400 ml  5 l   
11202400 15213005

### Rust Loosener and Contact Spray

- excellent creeping capacity
- loosens rusted screws
- dispels water

400 ml  5 l   
11150400 15150005

### Anti-Spatter Spray

- protects workpiece and gas nozzle
- for optimum welding results
- free of silicone

400 ml  5 l   
11700400 15050005

### Anti-Friction Spray MoS<sub>2</sub>

- dry lubricant
- repels dust, dirt and water

400 ml   
11539400

### Bio-Cut

- drilling and tapping oil
- biodegradable
- enables higher cutting performance

250 ml  400 ml  5 l   
15750002 11750400 15750005

# WEICON Solutions for Mechanical Engineering

## Technical Sprays and Liquids

### Double Nozzle | Only for the 500 ml product

### W 44 T® Multi-Spray

- lubricates mechanical precision devices
- dispels moisture
- protects against corrosion

400 ml ✓  
11251400    500 ml ✓  
11251550    5 l ✓  
15251005

### Corro-Protection

- corrosion protection of metal parts for indoor storages
- permanent conservation of tools and precision components made out of metal
- transparent, TÜV-approved protection layer

400 ml ✓  
11550400    5 l ✓  
15550005

### Stainless Steel bright grade

- with stainless steel pigments
- optics correspond to treated stainless steel look
- temperature resistant from -50°C to +300°C (-58°F to +572°F)

400 ml ✓  
11104400

### Zinc-Spray

- cathodic corrosion protection
- overpaintable
- >1.050 hours salt spray test according to DIN EN ISO 9227

400 ml ✓  
11000400

## WEICON Crack Testing Agent

Cleaner, Penetrant and Developer for the non-destructive material testing by way of colour penetration process

### Cleaner/Remover ① & ③

Material-neutral special cleaner for the colour penetration test. Suitable for metals, many plastics, ceramic materials, glass etc. The suitability for plastic has to be tested in advance.

500 ml ✓  
11692500

### Penetrant ②

Red diffusion agent with excellent capillary action for the non-destructive material testing - washes off with solvent. Suitable for metals, many plastics, ceramic materials, glass etc. The suitability for plastic has to be tested in advance.

500 ml ✓  
11690500

### Developer ④

Colourfast special developer on solvent basis for colour penetration tests. Suitable for metals, many plastics, ceramic materials, glass etc. The suitability for plastic has to be tested in advance.

500 ml ✓  
11691500

**Standards and regulations**  
Sample-tested according to DIN EN ISO 3452-2, Low sulphur and halogen content, according to DIN EN ISO 3452-2 and ASMECode, Section V, Article 6. AREVA NP TLV 9017.

For further packing sizes and detailed information on WEICON products, please visit our website [www.weicon.com](http://www.weicon.com)

## Technical Sprays for sensitive areas

With our selection of chemo-technical products with food certifications, we ensure that you get the right products for your production, maintenance and repair processes that meet, quality and safety-wise your exact requirements.

We have developed a variety of special products for the most different applications which meet the high standards of the *NSF International*.

These products can be used in sensitive areas such as food production, food and beverage industry and the pharmaceutical and cosmetic industry. Here our adhesives and sealants, assembly pastes or cleaners can be applied in the different areas of production.

### Metal-Fluid

Nonfood Compounds  
Program Listed A7/C1  
Registration 135124

- for matt and polished surfaces
- for stainless steel, ceramics, glass, plastics, wood

400 ml ✓  
11580400

### Silicone-Fluid

Nonfood Compounds  
Program Listed H1  
Registration 150726

- excellent sliding and separating effect
- temperature resistance from -30°C to +250°C (-22°F to +482°F)

400 ml ✓  
11351400

### Spray-on Grease H1

Nonfood Compounds  
Program Listed H1  
Registration 140651

- white grease
- high-temperature-resistant
- odour- and tasteless

400 ml ✓  
11541400

### Bio-Fluid

Nonfood Compounds  
Program Listed H1  
Registration 138103

- high lubricating effect and good creeping properties
- high-purity medical white oil

500 ml ✓  
11600500

### Rust Loosener Fluid

Nonfood Compounds  
Program Listed H1  
Registration 152621

- penetrates into the smallest cavities
- secures the function of mechanical parts and electrical contacts
- protects against corrosion and oxidation

400 ml ✓  
11154400

### Top-Lube-Fluid

Nonfood Compounds  
Program Listed H2  
Registration 152617

- particularly adherent and pressure-resistant
- noise-damping and water-repellent
- prevents elongation, friction and wear

400 ml ✓  
11512400

# WEICON Solutions for Mechanical Engineering

**PTFE-Fluid** Nonfood Compounds Program Listed H1 Registration 152619

- repels dirt, dust and water
- resistant against oils, greases and many chemicals
- can contribute towards the improvement of workplace safety and health protection

400 ml 11301400

**Anti-Seize High-Tech** Nonfood Compounds Program Listed A1 Registration 156369

- white assembly paste
- high-temperature-resistant
- metal-free

400 ml 27050400

**W 44 T®-Fluid** Nonfood Compounds Program Listed H2 Registration 152620

- resin and acid-free
- excellent penetration properties
- lubrication, water displacement, corrosion protection, cleaning and conservation in one product

400 ml 11253400

**Fast Cleaner** Nonfood Compounds Program Listed H1 Registration 141636

- pH-neutral and material-compatible
- can be used on many different materials such as metals, glass, ceramics and most rubbers and plastics
- can contribute towards improvements in occupational safety and health protection

500 ml 11212500

**Foam Cleaner** Nonfood Compounds Program Listed H1 Registration 157612

- powerful universal cleaner, cleans without leaving any residues
- cleans various surfaces such as metal, plastic, glass, ceramic, or varnished and coated surfaces

400 ml 11209400

**Universal Spatula**  
white 10953008

Special spatula for the gentle removal of the most diverse contamination and residues. Suitable for use in the food industry. EU Regulation 10/2011/EC plastics with food contact.

## -Classifications for

Lubricants, Release Agents and Anti-Corrosion Agents		
<b>H1</b>	Lubricant with incidental food contact for use in and around food processing areas.	Anti-Seize High-Tech, Bio-Fluid, Silicone-Fluid, Spray-on Grease H1, Rust Loosener-Fluid, W44T-Fluid
<b>H2</b>	Lubricant where there is no possibility of food contact in and around food processing areas.	PTFE-Fluid, Top-Lube-Fluid
Cleaning Agents		
<b>A7</b>	Metal cleaner and polisher for nonfood contact surfaces in and around food processing areas. Odours associated with the compound must be dissipated before food products or packaging materials are re-exposed in the area.	WEICON Metal-Fluid (Technical Liquid) WEICON Metal-Fluid (Spray)
<b>C1</b>	Cleaner for use in inedible product processing areas. Treated equipment that will be returned to a food processing area must be completely washed off and rinsed with potable water.	WEICON Metal-Fluid (Technical Liquid) WEICON Metal-Fluid (Spray)
<b>A1</b>	General cleaner for surfaces in and around food processing areas, where its use is not intended for direct food contact. A potable water rinse of cleaned surfaces is required after use of this product.	WEICON Fast Cleaner

For further packing sizes and detailed information on WEICON products, please visit our website [www.weicon.com](http://www.weicon.com)

## WEICON TOOLS®

Since 1967 we develop, produce and distribute an extensive range of wire stripping tools. This includes cable strippers, wire strippers, dismantling and multi-functional tools. Our tools have been developed for accurate, fast and safe stripping of all common cable types. They carry the GS seal of TÜV Nord and were developed under the aspects of work safety. The tools are specifically tailored to the needs of professional users, are found in both, crafts and industrial use and are also suitable for domestic use.

### Wire Stripper No. 5

- for finely stranded and solid conductors with PVC insulation
- for all common conductors from 0,2 - 6 mm<sup>2</sup> (24 - 10 AWG)

mm	g	mm <sup>2</sup>	Ømm	Art.-No.
170	107	0,2 - 6 (24 - 10 AWG)	-	51000005

### Wire Stripper No. 7 Magic

- for finely stranded and solid conductors with PVC insulation
- for all common round cables from 0,5 - 16 mm<sup>2</sup> (20 - 6 AWG flexible)  
(20 - 8 AWG massive)

mm	g	Round cables	mm <sup>2</sup>	Art.-No.
170	217	flexible solid	0,5 - 16 (20 - 6 AWG) 0,5 - 10 (20 - 8 AWG)	51000007

### Cable Stripper No. 4-28 H

- precise and safe dismantling
- for all common conductors of 4 - 28 mm Ø
- with protection cap

mm	g	Ømm	Art.-No.
185	98	4 - 28	50054328

# WEICON Solutions for Mechanical Engineering

## Duo-Crimp No. 300

- insulation removal from 0,5 mm<sup>2</sup> to 6,0 mm<sup>2</sup>
- two crimping ranges are offered (0,5 - 2,5 mm<sup>2</sup> and 4,0 - 6,0 mm<sup>2</sup>)
- integrated, well accessible side cutter up to 6 mm<sup>2</sup>

mm	g	mm <sup>2</sup>	Ømm	Art.-No.
160	116	0,5 - 6 (20 - 10 AWG)	-	51000300

## Multi-Opener

- no scratching of sensitive surfaces
- conductive ESD material protects against electrostatic discharge
- flexible fibreglass-reinforced polyamide

mm	g	Surface Resistance	Art.-No.
180	22	approx. 10 <sup>9</sup> Ω	52800000

## Crimp-Set Pro

- Duo-Crimp No. 300
- Wire Stripper No. 7 Magic
- high quality shaker with 400 wire ends (0,5 - 2,5 mm<sup>2</sup>) according to DIN 46228

mm	g	Art.-No.
Length x Width x Height	950	52880002

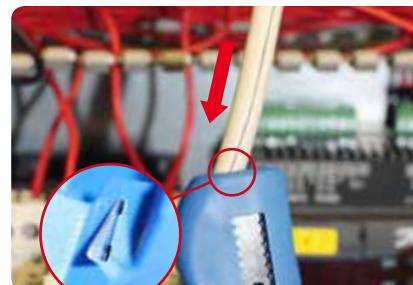

## Quadro-Stripper No. 16

- circular and longitudinal cutting - stripping - cutting
- exchangeable hook blade, firmly locked in any position
- anti-slip handle shape

mm	g	mm <sup>2</sup>	Ømm	Art.-No.
125	53	0,5 - 6 (20 - 10 AWG)	8 - 13	52000016

## Cable Scissors No. 35

- 2-component handles for increased safety
- high cutting performance
- blades made of special stainless steel

mm	g	mm <sup>2</sup>	Ømm	Art.-No.
150	90	-	-	52000035

## Starter-Set Pro

- Wire Stripper No. 5
- Coax-Stripper No. 2
- Cable Stripper No. S 4-28
- Round Cable Stripper No. 13

mm	g	Art.-No.
Length x Width x Height	575	52880001
